INTERNSHIP

Web Development Intern Internepe

July 24 – Aug 24 Jaipur

- Developed the frontend of **BabyNest**, a newborn e-commerce platform, using **HTML**, **CSS**, and **JavaScript**, boosting **user engagement by 16%** with a sleek, responsive design.
- Optimized **cross-device performance** for a seamless shopping experience, **increasing mobile traffic by 20%** through enhanced navigation and intuitive UI.
- Integrated a real-time dynamic shopping cart and interactive product galleries, improving **checkout completion rates by 8%**.

HTML React CSS

PROJECTS

FaithMart

Sept 23 – Dec 23 Durgapur

- Built FaithMart, a dynamic e-commerce platform for religious products, utilizing **Next.js** for fast server-side rendering and **Tailwind CSS** for a sleek, responsive interface.
- Streamlined user experience with **Google Authentication**, while boosting engagement through subscription services, multilingual support, and a community-driven review feature.
- Optimized inventory management by implementing **Prisma with Supabase**, while ensuring **secure payments through Stripe** integration and easy account access via Google Authentication

Nextjs Tailwind CSS Prisma Supabase MongoDB
Reactjs

Connect 4 Dots Game

April 23 – July 23 Durgapur

- Developed an interactive Connect Four game with real-time, turn-based mechanics, where players compete to connect four discs in a 7x6 grid.
- Designed the game board and implemented an algorithm to detect winning combinations across horizontal, vertical, and diagonal lines.
- Showcased skills in game logic, GUI development, and algorithm optimization, delivering an engaging and user-friendly player experience.

HTML CSS React
